Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same,* That the proper officers of the City of Pittsburgh be and they are hereby authorized and directed to enter into a contract with the Mt. Washington Street Railway Company, a corporation, and the Pittsburgh Railways Company, lessee of all the property and franchises of the Mt. Washington Street Railway Company, a corporation, parties of the second part;

Whereas, The parties of the second part are willing to dedicate to public use all their right, title and interest of, in and to a five-foot strip on each side of their private right of way flanked by Broadway, between the center line of Shiras avenue and the northerly line of Catalpa street in the Nineteenth ward of the City of Pittsburgh, so that the right of way at this point shall have a uniform width of thirty (30) feet at the grade of the roadbed as at present constructed; and

Whereas, The City of Pittsburgh is willing to accept the dedication of the said five-foot strips and, in consideration thereof, agrees as follows:

NOW, THEREFORE, THIS AGREEMENT WITNESSETH:

That, for and in consideration of the mutual covenants and agreements herein contained, the parties of the second part hereby agree by proper deed of conveyance to dedicate to general public use all their right, title and interest of, in and to a five-foot strip on each side of the right of way of the Mt. In consideration thereof, the City of

Pittsburgh agrees to raise, re-adapt and re-align the tracks and appurtenances operated by the Pittsburgh Railways Company, one of the second parties hereto, to the present established grade at the intersection of Pioneer avenue and Brookline boulevard, in the Nineteenth ward of the City of Pittsburgh, including all necessary run-outs and approaches thereto upon the private right of way of the Pittsburgh Railways Company, which run-out shall extend westwardly from the westerly or northerly curb line of Pioneer avenue, a distance of not less than one hundred fifty (150) feet and shall extend eastwardly from the easterly or southerly curb line of Pioneer avenue, a distance of not less than fifty (50) feet, and shall install one additional catch basin to properly care for the water drainage at this point. It is agreed that to properly support the tracks and roadbed, retaining walls will be necessary where the grade of the top of the curb is more than 34 inches below the present grade of the top of the rail.

It is the true intent and meaning of this agreement that the City of Pittsburgh shall, in addition to the matters and things herein expressly provided, also save and keep the parties of the second part harmless of and from all cost and expenses which may arise or result from any alterations, changes or improvements of their right of way, tracks, or property, due to or caused by the improving of Broadway now in progress at the above point, or to changes in the above-mentioned streets

crossing the said right of way or to the changes necessary at the intersection of Pioneer avenue and Brookline boulevard, and the City of Pittsburgh expressly agrees to indemnify and save the parties of the second part harmless from or on account of the same.

Whereas, Peter McGovern is the owner of a certain tract of land, fronting 476.45 feet on Morningside road and extending back a distance of 356.32 feet more or less, situate in the Tenth ward, City of Pittsburgh; and

Whereas, The City of Pittsburgh, by ordinance approved May 31, 1911, authorized and directed the opening of Morningside avenue from the first angle south of Martha street to Stanton avenue, and by the Viewers' proceedings, filed at No. 493 January Term, 1912, said Morningside avenue was opened and the damages due to the grade adjudicated; and

which strip of ground is part of old Morningside road; and

Lovejoy, situate in the Fourteenth ward of the City of Pittsburgh, and said property is about to be sold upon the 1908 tax lien, on Monday, July 2, 1917, which sale will be made subject to a mortgage to the Home Trust Company for \$125,000.00, dated February 25, 1908, and recorded in the Recorder's Office of Allegheny County, in Mortgage Book, Vol. 1363, page 596, with interest from the date thereof; and

Whereas, It appears that the assessment of the unfinished three-story stone dwelling house, and the two-story brick garage upon said property was carried for a number of years at an excessive valuation, the house having been assessed at \$150,000.00 and the garage at \$130,000.00, from 1905 to 1912, inclusive, and from 1913 to 1915, inclusive, at \$75,000.00 for the house and \$50,000.00 for the garage, which assessments were reduced for the years 1916 and 1917 to \$40,000.00 for the house and \$30,000.00 for the garage; by reason of which excessive assessment the taxes levied against said property during the past ten years, aggregated a total double the amount of taxes which would have been levied upon said property at a fair valuation such as the present assessment; and

Whereas, It is probable that the holder of the first mortgage above-mentioned would be willing to pay a sum equal to 50 per cent. of the total amount of the taxes now in arrears on said property, and it is desirable that a sub-

stantial amount should be collected by the City on account of said taxes, rather than that title should be taken by the City of Pittsburgh, subject to the aforesaid mortgage; now therefore, be it

Resolved, That the City Solicitor be authorized and directed to accept in full compromise and settlement of all amounts due for City, school and water taxes, and interest, penalties and costs thereon, a sum equal to 50 per cent. of the total aggregate amount of such taxes due and unpaid upon said property for the years from 1908 to 1917, inclusive, and upon payment of such amount to satisfy in full, all liens entered for such taxes, and give a receipt in full for such taxes as may not have been entered as liens.

Whereas, The contract of the Duquesne Light Company for the lighting of public streets and highways in the City of Pittsburgh expired on the first day of February, 1917; and

Whereas, The Duquesne Light Company thereafter continued to furnish electric current for light in the City of Pittsburgh, and the City of Pittsburgh, pursuant to the provisions of a resolution, approved the 29th day of March, 1917, is paying to the Duquesne Light Company at the rate of twenty thousand

(\$20,000.00) dollars per month on account of said service; and

Whereas, No contract has been let for the furnishing of electric current for light in the City of Pittsburgh since the expiration of the contract of February 1, 1917, and the question of the price to be paid by the City of Pittsburgh has been submitted to the Public Service Commission of this state for its determination, and the Duquesne Light Company contends that the amount now paid by the City of Pittsburgh, namely, twenty thousand (\$20,000.00) dollars per month, is insufficient and inadequate; and

Whereas, The City of Pittsburgh is not prepared at this time to advertise for bids for a contract or let a contract for electric current for Municipal lighting, and is desirous of protecting the light company in the payment of whatever sum may be ultimately determined to be the fair, just and reasonable charge for electric current and service for street lighting, and for this purpose is desirous of giving its bond in the principal sum of two hundred thousand (\$200,000.00) dollars, for the payment of the difference, if any, between the said twenty thousand (\$20,000.00) dollars per month, and the amount which may be ultimately determined by agreement or by the decision of the Public Service Commission; now therefore, be it

Resolved, That the Mayor and the City Controller are hereby authorized and directed to make, execute and deliver to the Duquesne Light Company, the bond of the City of Pittsburgh, in the principal sum of two hundred thousand (\$200,000.00) dollars; the said bond to be in the following form, namely:

Know All Men By These Presents, That the City of Pittsburgh, a City of the second class of the Commonwealth of Pennsylvania, is held and firmly bound unto the Duquesne Light Company, a corporation created and existing under the laws of the Commonwealth of Pennsylvania, in the sum of two hundred thousand (\$200,000.00) dollars, lawful money of the United States of America, to be paid to the said Duquesne Light Company, its successors or assigns, to which payment well and truly to be made, the City of Pittsburgh does bind itself firmly by these presents.

In Witness Whereof, The City of Pittsburgh has caused this bond to be signed by the Mayor and the Controller, and caused its common and corporate seal to be attached hereto, this _____ day of _____ in the year of our Lord, one thousand nine hundred and seventeen.

Now, The condition of the above obligation is such, that if the above bounden City of Pittsburgh shall and does well and truly pay, or cause to be paid unto the said Duquesne Light Company, its successors or assigns, a certain sum, if any, equal to the difference between the sum of twenty thousand (\$20,000.00) dollars per month, and the sum which

shall be fixed and determined by a contract between the City of Pittsburgh and the Duquesne Light Company, or otherwise fixed or adjudicated, respecting the charge for electric current for the lighting of the streets and highways in the City of Pittsburgh (exclusive of the portion of the City embraced in the former City of Allegheny, now constituting the North Side of the City of Pittsburgh), commencing on the first day of February, 1917, and continuing so long as the Duquesne Light Company shall furnish light to the City of Pittsburgh, without a formal contract, and if the City of Pittsburgh shall pay the sum of such differences within sixty days after the formal execution of such contract, or upon the fixing and determining of such differences in any other manner, then this obligation to be void, otherwise it is to remain in full force and virtue.

Whereas, In accordance with an ordinance approved May 19, 1917, a contract was awarded to George S. White for the repaving of Preble avenue, from Stieren street southwardly, the sum of \$15,000.00 was set apart and appropriated from Code Account 1489-E, Repaving Schedule, Division of Streets, Bureau of Engineering, for the payment of the costs of said work; and

White Co. haul approximately 2600 square yards of blockstone from the storage yard under the Bloomfield bridge to the said Preble avenue repaving work; and

Whereas, The City of Pittsburgh in laying and constructing the sewer on Jay street, under a contract given to Newcomer & Wolf of the Monessen Land Company, it was necessary in the said constructing of the sewer to excavate from rock along the front of the prop-

erty owned by Mr. James Waters, whose property is situated at No. 153 Henderson street; and

Whereas, Mrs. Waters had some time prior to the laying of the said sewer built a retaining wall on Jay street in the rear of her property, which retaining wall was necessary for the preservation of the property; the said retaining wall standing there in a firm condition until after the laying of the said sewer; and

Whereas, Since the taking away of the lateral support holding the retaining wall and the slipping of the land, the retaining wall which is very close to the house is in a weakened condition, and is liable to fall at any time, and upon the same falling against the house will cause not only a total loss of the retaining wall but also greatly damage her house. During the construction of the said sewer, the contractors piled stone and material taken from the excavation upon and against the said retaining wall, moving it from its heretofore permanent foundation and when the same was removed the retaining wall was left in a weak and dangerous condition; and

Whereas, The said Mrs. Waters has procured bids for the repair of the retaining wall amounting to \$297.00, and the City of Pittsburgh, through the Law Department, having had the same investigated by Fred Herring, contractor, and having procured a bid from him in the sum of \$300.00, which bid provides for the rebuilding and the repairing of the retaining wall and placing it in a safe and stable condition; now therefore, be it

Whereas, In order to complete the contract it was necessary to have the contractor haul 2635.13 square yards of blockstone from the City yards under the Bloomfield bridge to the work on Preble avenue; and

Whereas, The cost of hauling the blockstone made it necessary to decrease the length of the improvement as shown

on the contract plan, and the contractor therefore, had material, such as cement, sand and gravel left along the line of the work which had to be removed by the contractor after the completion of the work; and

Whereas, It was necessary to place extra concrete in back of the curb along the northerly side of the street in order to properly support the fence along the Pennsylvania Railroad Company's property; and

Whereas, Unit prices covering the above extra work were not included in the contract, and it was decided to pay for the same as extra work and

Whereas, Extra work bids were received from the George S. White Company and approved by the proper City officials; now therefore, be it

Resolved, That the Mayor be and he is hereby authorized and directed to issue, and the City Controller to countersign, a warrant in favor of the George S. Whereas, Said Kaufmann Brothers mailed their check, in the sum of \$2,174.78, being the amount of said bill less two (2%) per cent. discount, to the City Treasurer on November 12, 1917, said check being received by the City Treasurer on November 13, 1917; now therefore, be it

Whereas, The grading, paving and curbing of West Carson street from the dividing line of the old Thirty-sixth and Fortieth wards to Chartiers creek in the Twentieth ward of the City of Pittsburgh was inadvertently referred to the Board of Viewers appointed at No. 1190 October Term, 1913, Docket "B," which made and imposed certain benefit assessments against the abutting properties for a portion of the costs and expenses in the grading, paving and curbing of the said West Carson street contrary to the understanding and agreement that the cost of the grading, paving and curbing was not to be assessed against the abutting properties; and that the assessments so erroneously and unjustly made are now pending liens against said properties and unjustly prevent the free alienation and usage of the same; therefore, be it

Resolved, That the City Solicitor be and he is hereby authorized and directed to satisfy all unpaid liens assessed against the abutting property owners growing out of the grading, paving and curbing of West Carson street from the dividing line of the old Thirty-sixth and Fortieth wards of the City of Pittsburgh to Chartiers creek, in the said Twentieth ward.

Whereas, On advice of the Bureau of Water, a 4-inch meter was installed; and

Whereas, On September 29, 1917, a bill for said water rent for the last quarter was sent to the said S. C. Farrar, amounting to \$177.43; and

Whereas, There are four houses connected with said water line; and

Whereas, The City has supplied in all, up to the September meter, 46,000 gallons of water, and this amount at the City rate plus 25 per cent., amounts to \$10.60, and the said S. C. Farrar believes that they owe the City for value received and nothing more; therefore, be it

No. 616

Whereas, In carrying out the contract for the grading, paving and curbing of Butler street, from Baker street to Heth's Run Bridge, which contract was held by the Thomas Cronin Company and the work was done in November and December, 1916, it appears that a water service pipe leading to the property of Charles Harward, 7340 Butler street, was broken; and

Whereas, The fact that this pipe was broken during the street improvement work was not called to the attention of the Bureau of Engineering until several months after the street work had been completed; and

Whereas, It is impossible at this time

to determine, or obtain any information to show who was responsible for the breaking of said water pipe; and

Whereas, The owner of the property was compelled to pay a plumbing bill for repairing said broken pipe and justly demands that he be recompensated for the expense incurred when said expense was due to no fault of said property owner; now therefore, be it

Resolved, That the Mayor be and he is hereby authorized and directed to issue, and the City Controller to countersign, a warrant in favor of Charles Harward, for the sum of twenty-five dollars and ninety-two cents (\$25.92) for the cost of paying for the repairing of a broken water pipe on Butler street, between Baker street and Heth's Run Bridge, and charge same to Appropriation No. 1490-G, Retaining Wall Schedule, Division of Streets, Bureau of Engineering.
